

Rust Veto® 2012

Water dilutable rust inhibitor

DESCRIPTION

Rust Veto 2012 is a water dilutable rust inhibitor for ferrous metals. It is formulated with a synergistic blend of ingredients that allows the product to be biostable in use.

Rust Veto 2012 forms a transparent micro emulsion when diluted with water.

Rust Veto 2012 provides short term indoor rust protection.

Rust Veto 2012 leaves a light oil-like film which can easily be removed with an alkaline cleaner.

Rust Veto 2012 is used at 5% to 10% dilution in water and can be applied by brush, dip or spray.

FEATURES / BENEFITS

- Thin film protects your parts without excessive carry-off which reduces usage and cost.
- Low-odor nature of the product optimizes worker acceptance.

DATA (TYPICAL VALUES)

Appearance	Dark brown fluid
Diluted appearance	Transparent
