

Cerfa-Kleen® 5398

Organic low residue spray cleaner

DESCRIPTION

Cerfa-Kleen 5398 is a non-nitrited, low residue spray cleaner with short-term in-plant rust protection. **Cerfa-Kleen 5398** presents no barrier to subsequent coating or welding and has proven to be an excellent alternative to the use of solvent emulsion cleaners. **Cerfa-Kleen 5398** may be used in all stages of multi-stage washers.

Cerfa-Kleen 5398 is the ideal product for pre-heat treat applications. Once it removes the soils from the components it will leave a non-oily residue that will not inhibit the heat treating process. Because of Houghton's expertise in heat treatment oils, we are better able to formulate a superior cleaner with chemistry to optimize soil removal prior to heat treatment.

APPLICATIONS

Cerfa-Kleen 5398 is the ideal product to use to remove shop soils such as quench oils, soluble coolants cutting oils and metal forming compounds.

DATA (TYPICAL VALUES)

Appearance	Clear to pale yellow liquid
pH (2% of Solution)	10.3 ± 0.2
Phosphates	None
Solubility	Freely soluble in water
Operating Temperature	Ambient to 160°F
Use Concentration	2% – 4% by volume

FEATURES / BENEFITS

- **Economical Product:** Cerfa-Kleen 5398 has a low neat and diluted cost.
- **Excellent Corrosion Protection:** Cerfa-Kleen 5398 is an in-process rust protector on washed parts.
- **Cleanability:** Cerfa-Kleen 5398 has lower sediment/dirt counts than typical organic cleaners
- **Versatility:** Cerfa-Kleen 5398 replaces solvent emulsions and silicated cleaners.
- **Ideal for Heat Treating:** Cerfa-Kleen 5398 is particularly effective in cleaning quench oils and splitting them out of solution.
- **Completely Organic:** Heat Treatment process compatible.

HEALTH AND SAFETY

Refer to SDS for proper handling and disposal. Please note that the SDS includes handling, health and disposal information which should be passed on to your employees, and to anyone else who comes in contact with our product. Additional advice can also be obtained from your local Houghton representative.

NOTE: Read and understand all precautions on container labels before using this product.
