

Rust Veto® 210-C

Light oil rust preventative

DESCRIPTION

Rust Veto 210-C is an oil rust preventative that displaces and separates water. It can be applied by brush, spray, or dip methods. The product exhibits a light oily film, if applied properly, and offers up to one year of indoor rust protection.

FEATURES / BENEFITS

- Thin film protects your parts without excessive carry-off which reduces usage and cost.
- Low-odor nature of the product optimizes worker acceptance.
- Displaces water or process fluids from wet parts to rapidly begin the corrosion inhibition process.
- Separates any displaced water from itself to optimize both corrosion inhibition and bath life.
- The high flash point reduces the potential for flammability and may reduce fire insurance premiums.
- Rapid drying permits handling of parts shortly after application which expedites process flow and packaging.

DATA (TYPICAL VALUES)

Appearance	Clear, amber
Specific gravity	0.838
Viscosity at 100°F SUS (38°C)	40 SUS
Copper Corrosion	1a
ASTM D-130	
Flash Point, C.O.C.	260°F
Fire Point, C.O.C.	270°F
Film Thickness	0.26 mls
Film Type	Light, oily
Water Displacement	Passes
Water Separation	Passes
Humidity at 120°F/100% RH Polished Panels	Passes 30+ days

HEALTH AND SAFETY

Refer to SDS for proper handling and disposal. Please note that the SDS includes handling, health and disposal information which should be passed on to your employees, and to anyone else who comes in contact with our product. Additional advice can also be obtained from your local Houghton representative.
