

# Rust Veto® 2238

Rust preventative

## DESCRIPTION

**Rust Veto 2238** is an all synthetic aqueous base rust preventive, which has the features of a non-nitrited chemical rust inhibitor. It forms a clear solution and is recommended for use on ferrous and nonferrous metals. When properly applied to clean parts, **Rust Veto 2238** will provide up to two (2) months of indoor rust protection.

## FEATURES / BENEFITS

- No oil - eliminates disposal problems common with water base preservation
- No nitrites - eliminates health hazard associated with this chemical
- Hard water stable - solutions are stable in hard water, up to 500 ppm, while retaining rust protection

## DATA (TYPICAL VALUES)
