

Rust Veto® 4295 PT

Biostable rust preventive

DESCRIPTION

Rust Veto 4295 PT is a biostable water emulsifiable rust preventive which provides excellent humidity protection. The product is readily emulsifiable in either hard or soft water. No special mixing procedures are required.

A 10% emulsion of **Rust Veto 4295 PT** will deposit a thin, protective film on treated surfaces. The thin film will typically provide corrosion protection on plain carbon or low alloy steel for 9 months indoors. Film removal is accomplished with hot water and detergent.

Rust Veto 4295 PT is formulated with a combination of ingredients that provide a greater resistance to microbial degradation of the fluid.

FEATURES / BENEFITS

- Protects Indoors for nine months: The thin, protective film will typically provide corrosion protection on treated surfaces such as plain carbon or low alloy steel for nine months indoors.
- Barium-free formulation reduces waste treatment concerns.
- Excellent humidity protection: dependable rust preventive for indoor use.
- Emulsifies in water: Mixes easily with water at a temperature of 65°F in hard or soft water.
- No fire hazard: Flammable solvent-type rust preventives and their hazards are eliminated when Rust Veto 4295 PT is used.
- No oily feel to parts: As a final preservative, the thin film deposited by Rust Veto 4295 PT results in finished parts without an “oily” feel.
- Ferrous corrosion preventive: when applied to cleaned parts, a 5–10% dilution of Rust Veto 4295 PT is capable of protecting ferrous components for 9 months depending upon storage conditions.
- Thin film protects your parts without excessive carry-off which reduces usage and cost.

DATA (TYPICAL VALUES)

Appearance, Neat	Amber fluid
Specific Gravity @ 60°F (15.5°C)	.92
Viscosity @ 100°F, SUS	268
Flash Point, °F, COC	295°F typical
pH @ 10%	9.45
Humidity Protection, 1010 Steel treated with a 10% emulsion	30 days typical

EN 15.02 US

HEALTH AND SAFETY

Refer to SDS for proper handling and disposal. Please note that the SDS includes handling, health and disposal information which should be passed on to your employees, and to anyone else who comes in contact with our product. Additional advice can also be obtained from your local Houghton representative.

NOTE: Read and understand all precautions on container labels before using this product.
